

Continue your tour at French Lick Springs Hotel and you'll learn more about the first visitors to the area, the famous Pluto Water and the gentleman who put French Lick on the map.

Since its early founding, the area known as French Lick has been filled with intrigue, adventure and decadence. The rich history surrounding the resort has provided guests with an unmistakable optimism for health, good fortune and the opportunity to satisfy any given whim—making it the destination of choice for many of our nation's most regarded clientele. The Roaring '20s brought the likes of the Rockefellers, the Vanderbilts and the Studebakers to this tiny valley in southern Indiana—all hob-nobbing with politicians, sports legends and gangsters.

This American Classic was the site of the 1931 Governor's Conference where Franklin D. Roosevelt gained his party's support to run for president. Another interesting fact: tomato juice was first served as a breakfast drink here.
